Nicole/Kim,

Please do not instruct anyone to move from the hotels currently confirmed in. As we appreciate your help in locating and securing additional hotels that are closer, we have to maintain the current commitment that we have with these existing hotels where folks have been assigned. Until we can get commitments to get folks in the existing rooms where these Water folks are, we are unable to just allow them to move. Logistics has to meet to determine future needs, dates folks are going to deploy and fill what we have right now. I am certainly glad that hotels are opening up; but, be reminded that there is a process in place for EPA to secure, obtain and assign folks as they are deployed. The current timeframe for each of the deployments in the hotels are 2 weeks, which is what was negotiated with the hotel. We anticipate an influx of persons to deploy this week (we are waiting to receive this info) and are working to see what those numbers look like, dates to deploy, etc. Even though the Water folks are eager to move, as others are as well, they are not the only ones who are traveling a distance to work. We can/will look at the need to move folks around during our discussions and our future needs to maintain what we have, acquire more, etc. I cannot at this time just move folks, but I will contact the hotel to see about putting these rooms on hold.

Please stand by until further notice.

Correction the folks to be transferred to one of the two options listed below.  
Also for folks who are transferring to the Holiday Inn tomorrow from the Club Quarter do they check out fully or return the rooms back the EPA room block?
